The 2020 Scrum Guide™

This HTML version of the Scrum Guide is a direct port of the November 2020 version available [as a PDF here](#).

Purpose of the Scrum Guide

“We developed Scrum in the early 1990s. We wrote the first version of the Scrum Guide in 2010...”

Scrum Master

Scrum Master

The Scrum Master is accountable for establishing Scrum as defined in the Scrum Guide. They do this by helping everyone understand Scrum theory and practice, both within the Scrum Team and the organization.

The Scrum Master is accountable for the Scrum Team's effectiveness. They do this by enabling the Scrum Team to improve its practices, within the Scrum framework.

Scrum Masters are true leaders who serve the Scrum Team and the larger organization.

“Not Scam Master...”

 - Inspection

End Note

Scrum is free and offered in this Guide. **The Scrum framework, as outlined herein, is immutable.** While implementing only parts of Scrum is possible, the result is not Scrum. Scrum exists only in its entirety and functions well as a container for other techniques, methodologies, and practices.

The Future

What I am looking forward to...

Value Stream Mapping

- Development methodology: agile, waterfall, Feature driven, Rapid application, Extreme Programming, etc
- Team
 - Velocity, formation, location, communication
- % Automated
 - Dev process & practices
 - Code Quality
 - Security
 - Repetitive work
 - Builds
 - Unit testing
 - Integration testing
 - Provisioning of environments
- Tooling
 - Code
 - Build
 - UT
 - other

What I am looking forward to...

Value Stream Mapping

- Provision of Environments
- Test Execution
 - %Automated
 - %Manual
- Test Coverage
- Test Types
 - Functional
 - Non-Functional
- Reports
 - Manual x Automated
 - Risk Assessment
 - Coverage
 - Pass x Fail
 - Security
 - Compliance
- Test Management

What I am looking forward to...

Thank you!
